BELOW IS THE SCREENSHOT OF LMS SOFTWARE USED IN OUR INSTITUTE

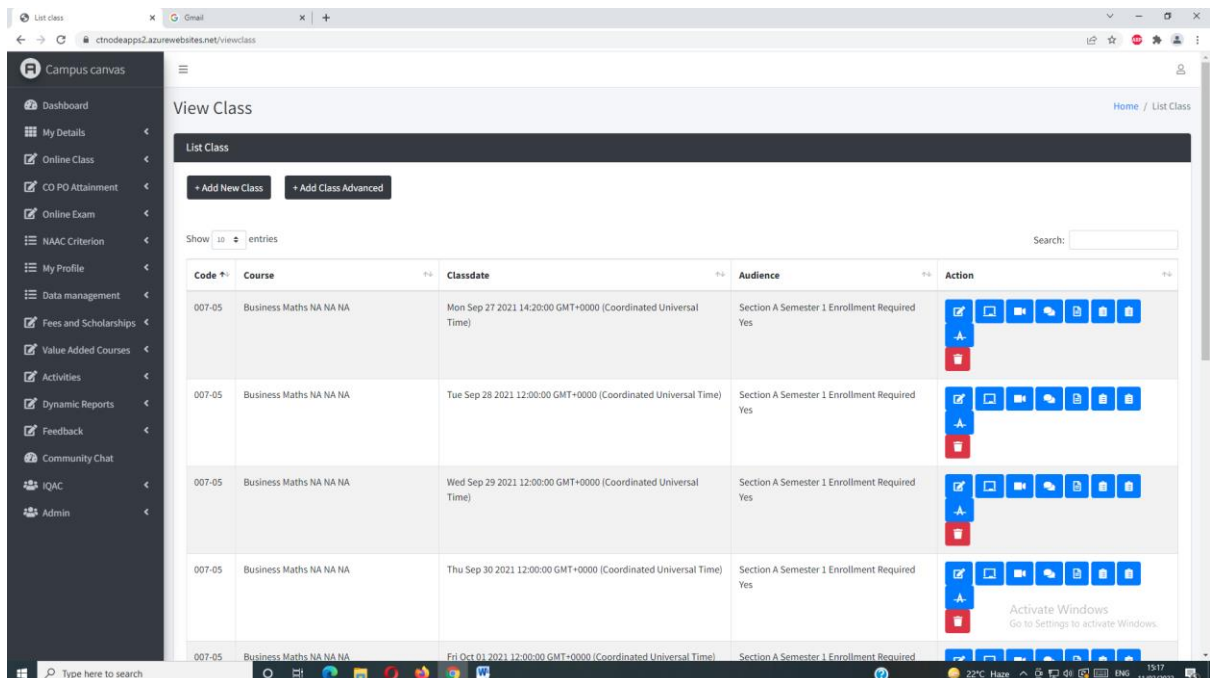

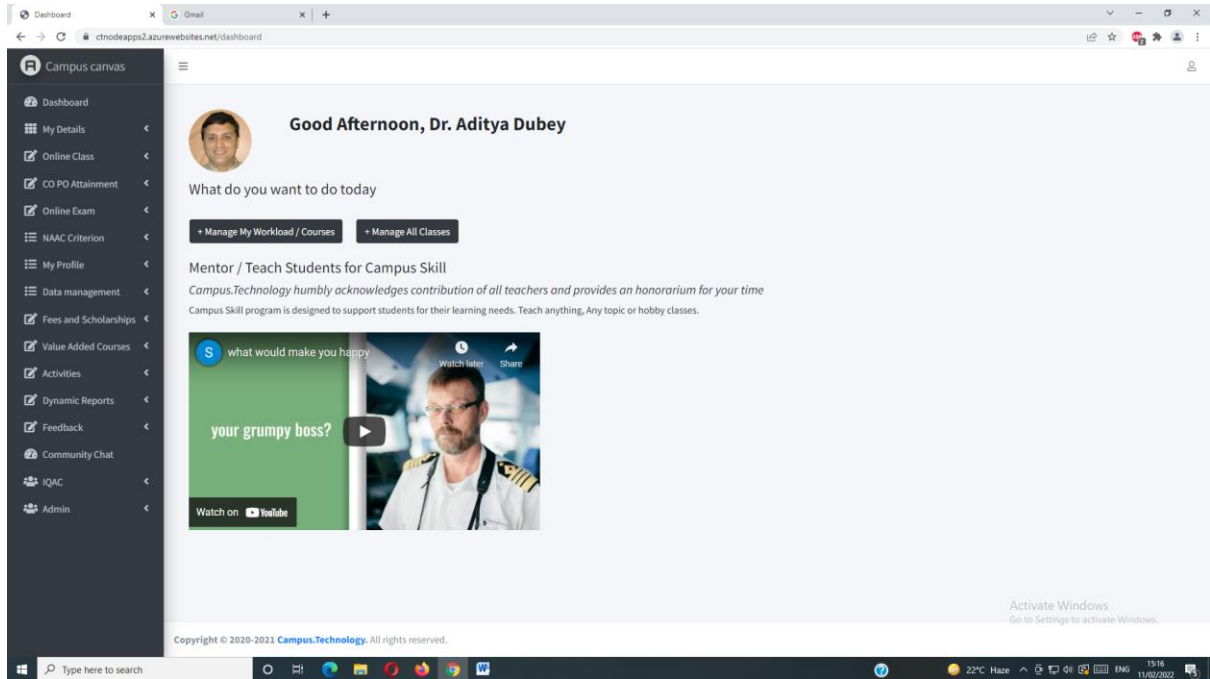

With this software teachers can schedule their classes from their account created using the campus technology website and students can join class using the POSTO epathsala App. Scheduled classes are displayed in students' profile which they logged in using their ID and Password and they are joined directly through the app.

Education must go on!

With the pandemic still looming overhead, the future remains uncertain. However, not everything is hopeless. As more countries begin to adapt to the new normal, educational institutions are starting to adopt as well.

The virus isn't a death sentence on education. With the right tools like LMS COVID-19 paves the way to a different form of learning and teaching. Teachers can continue with their job of instructing the younger generation, while students will not be bored stuck at home. In the end, LMS can give that sense of normalcy in these trying times.

Therefore, LMS is important, especially now while COVID-19 remains a threat to everyone's health and safety. It will ensure that education can carry on while also ensuring the effectiveness of online learning.
