

7.3 Institutional Distinctiveness 2019-20

C.M.Dubey Post Graduate is a premier institution is committed to enrich, enlightened the youth coming from our city and surrounding rural areas. The core value of the College is to develop skills and aptitude in the students to equip them to face the challenges and need of a fast changing society. Ethical, moral values are instilled by providing an ecosystem of learning through social, cultural and group activities.

Establishment of C.M.Dubey Post Graduate College, Bilaspur symbolizes ascendance of plateau of achievement of academic excellence in disseminating quality education from under graduation to post graduation level followed by Ph.D. programs. The institute distinguishes itself by offering an inclusive, innovative quality education so as to meet the expectations of the stakeholders.

The College is a preferred as it is centrally located with a vast campus and rich infrastructure to cater to academic expectations. Huge playground with parking facility and lush green gardens create a pleasant ambience and suitable atmosphere for teaching and learning.

E-governance is a novel initiative being adopted by the management and affiliating University with a purpose to handle vast amount of information of the College, to make the system more transparent, and efficient. The admissions, teaching-learning, examinations and financial transactions were done online. ERP/ LMS software from Campus Technology, Bangalore was subscribed for the purpose.

The College aims to impart higher education as envisaged and directed from time to time by government of higher education of the state. Through its effective teaching and life sustaining skills amongst its learners. Along with the vast range of programs offered the institution is aware in playing a vital role in research and develops critical and scientific thinking amongst the stakeholders. Almost all post graduated departments have been study centers over the past number of years guiding students in their research oriented endeavors. A Central library with vast range of books / Journals with reading room and departmental libraries are also a valued

part of our resource. The library is in transition from semi manual to digital mode.

Science Departments have well equipped and modern laboratories. ICT methodologies are playing a great role in engaging online and offline teaching, learning and access to information's. Taking a giant step towards the modern pedagogy the faculty during lockdown period created online e-content and prepared video lectures for the purpose. The student- teacher virtual interactions was a potent mechanism under adverse conditions. As a part of curricular enrichment almost all the departments conducted value added and skill development of courses to make the students better prepare to meet the demands of the time as well as to help them develop their aptitude and make them self reliance.

Sport , Yoga and cultural activities are also taken to help students develop their mental and physical abilities providing them an opportunity to apply academic skills in a real word context. The activities also help reduce many peer pressure related problems. To organize this we have a Sports Complex with a Gym and indoor stadium. The auditorium/ theatre helps in organizing educational, cultural activities. The playgrounds are the biggest attractions for citizens as well where sports competitions, games, matches, knowledge fairs, book fairs are regularly organized. Participation of youth is promoted and encouraged.

The various faculties regularly hold activities for environmental conservation viz. integrated waste management; rallies against pollution, awareness workshops and legal literacy were organized. National Service Scheme, College unit has won national and state recognition for its constant endeavors to serve community.
